Dear Mr. Ross:

Thank you so much for coming in to our Small Business Management class today. I really learned a lot about the insurance industry. The main thing I learned was that insurance makes the world go around, and that we rely on insurance. This really opened my eyes to the underrated importance of insurance in our world.

Thank you so much for coming in and teaching us about the importance of insurance.

Sincerely,

Ariano Treviño Angelone.

Thank you very much for your time and consideration. I learned a lot about the insurance business and what I may want to do for a future profession. I also really liked how you talked about not being a school person, because I am not either. Another thing is that I know my dad is interested in the insurance business and I now have a lot of info for him. I definitely have way more knowledge than when i did this morning. Once again, Thank you very much.

Dear Derek,

Thank you so much for taking the time out of your day to come and speak to Mrs. Orth's business class. It was really inspirational to hear you talk about how you followed your dreams and made your career. I learned so much, not just about the insurance business, but about how to work hard in any business. You really sparked my interest in insurance, and I think it would be a great opportunity if I were to intern with a firm. I really loved the way you were so open with our class and talked about your life. Thank you again, and I hope you can come back another time.

Sincerely,

Anna Gyure (the one who wanted to open a dance studio)

Hello, I was in the Small Business Management class that you spoke in at Agoura Highschool, and I wanted to thank you for introducing me to a new career that I've never noticed. You made me think about being in the insurance industry because it seems that you have an overall enjoyable life and that's all someone could ask for. You don't seem very stressed about stuff and you still look 30, which is a great sign. I'm definitely going to take the insurance career into consideration in the future.

Thank you.
